naida is an AI consultancy in Singapore, founded by Uli Hitzel. We help companies build their own AI capability: the strategy, the team and the systems.

Strategic AI Alignment and Workforce Transformation

A company-wide AI strategy, the governance to run it, and the training your people need to carry it out.

Duration 12–18 months

Expected outcomes

- An AI strategy tied to business objectives, with a 70–80% higher success rate for AI projects
- 50–70% of the workforce trained to work with AI

Overview

We work with your leadership on a practical AI roadmap that supports the business strategy, and with your teams on the skills to carry it out. The program covers governance, hiring, training and the everyday way people work with AI.

Scope

- Review of the current AI strategy against business objectives and market developments
- Workshops across functions to agree on one company-wide AI plan
- An AI strategic plan in line with company goals and values, including ethical questions
- The AI skills and roles the plan needs, compared with the current workforce
- Upskilling and reskilling programs
- Hiring and retention of AI talent, together with HR
- Room for experiments and ongoing learning in the teams
- AI governance and guidelines for responsible use
- Progress reviews and adjustments based on data
- Regular reporting to stakeholders
